generally made from a variety of natural or synthetic materials. They can be worn for 3-6 hours. After use, they should be washed, dried and re-used for approximately one year.

1. **Tampon:** Tampons are absorbent materials made from cotton and/or rayon that are inserted in the vagina to absorb menstrual flow. They expand with moisture and thereby avoid leakage. They can be worn for up to 8 hours, come in variety of sizes and are biodegradable.
2. **Menstrual Cup:** The menstrual cup is a non-absorbent bell-shaped device that is inserted in the vagina to collect menstrual flow. It is typically made of medical-grade silicone. It collects three times more blood than pads or tampons and needs to be emptied every 6-12 hours. After each menstrual cycle the cup must be disinfected in boiling water for 5-10 minutes. Cups are reusable for 5-10 years.

WHAT CHALLENGES DO GIRLS MY AGE FACE WITH REGARD TO MENSTRUATION?

LACK OF SAFE AND PRIVATE SPACES

Lack of availability of safe, private and clean toilets for changing/ menstrual products during the day and night.

EMBARRASSMENT & ANXIETY

Blood stains on clothing and worry about menstrual leaks prevent girls and women from undertaking normal day to day activities.

LACK OF INFORMATION

The absence of basic menstrual hygiene and health education lead to ill health.

TABOOS & RESTRICTIONS

Traditional perceptions of menstruation as dirty, unclean and health-threatening prevent girls and women from seeking help and using menstrual products. This leads to restrictions on their freedom of movement and social life. This leads to the emergence of stigma, prejudice and discrimination.

Education about menstruation changes everything.

The incinerators are available of two types:

1 Manually operated fire based incinerators

Electrically Operated Incinerators

Incinerator is a Sanitary Napkin destroyer where used napkins are converted into sterile ash. The incinerator under high temperature burns the discarded material to produce ash and minimal amount of smoke which is removed through an air vent.
