ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Information Technology (IT) was established in 2007. The department runs UG with well experienced faculty in various disciplines of IT. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

PROJECT INTRODUCTION

European Center for Mechatronics and Manufacturing with a vision to create a sustainable ecosystem in the fields of manufacturing and industrial robotics in Andhra Pradesh, India has chosen a two-pronged approach to develop academic and industrial clusters to complement each other. These clusters are being developed with partners from government bodies, educational institutions, and private industries. On the other front ECMM through their German partner APS GmbH European Center for Mechatronics has joined hands with APSSDC and the Government of Andhra Pradesh in training students at the bachelors engineering level by the time of graduation.

The Andhra Pradesh State Skill Development Corporation signed with the European Center for Mechatronics Germany has opened Advanced Robotic Control Centres over 31 engineering colleges in Andhra Pradesh.

ACADEMIC DELEGATION TO GERMANY

A leadership delegation comprising the senior management of 31 Engineering colleges and representatives have visited the facilities of APS European Centre for Mechatronics and its partners in Germany. Colleges have signed MoUs with ECM to be included in "Indo-European Skilling Centres for Mechatronics and Industrial Robotics" to become partners in establishing "Applied Robot Control (ARC) Labs" at their premises.

FACULTY SELECTION AND TRAINING

Faculty members play a crucial role in the delivery of the ARC courses as it involves teaching sessions from faculties from Germany and the faculty of the Indo-European Skilling Centers for Mechatronics and Industrial Robotics.

65 Faculty members from 31 colleges are selected from the nominations submitted by the colleges. Selection is done by the technical team of ECM and APSSDC after taking into consideration aspects like engineering background, academic position, knowledge in industrial automation / Manufacturing automation / Robotics, Teaching skills / Years of experience in lecturing, Experience in the planning of lectures and lab courses, Interest in teaching Industrial Robotics / Interest in ARC development, Strong academic and professional record, Interpersonal skills.

STUDENT SELECTION

The student selection process has been done in three steps:

A very stubborn 3-way process has been implemented for selecting students from the colleges. To start with, the total number of eligible students from colleges from the disciplines of Mechanical/ ECE/ EEE/ Instrumentation/Automobile has been considered.

ARC PLACEMENT DRIVE

After successful completion of Basic and Advanced level (ARC 1.0, 2.0) of training we have conducted a placement drive through the following companies KIA, ISUZU, TVS, Hero, Royal Enfield, Vespa. Selection has been done through three tiers process that includes examination, Personal interview and HR round. Out of a total 311 students participated in the drive students been placed in the above mentioned students based on their performance.

ARC STUDENTS FILTRATION FUNNEL

ARC INTERNATIONAL INTERNSHIP

This course is a walkthrough in the world of Robotics and extends from beginner to advance levels. Core concepts of Robotics explained in a crisp and lucid manner. By the end of this entire module, students are aware of different kinds of industrial robots, various sensing, and locomotion mechanisms and finally, learn to develop mathematical models for positioning and controlling these robots. In this training set, applications used in industry such as teach path, pick and place and more, robot selection, connections, flex pendant use, and Detailed information about the simulation had been given. At the end of the simulation, we will create a basic level of advanced infrastructure for the IGUS Robo guide.

Students gained knowledge on Key technologies of industry 4.0 such as basics of Mechatronics, Robotics and Integration both for Manufacturing.

Students gained knowledge on LCA, Expert Systems which is used in industry and perform different robotic tasks by using Cprog Software and IGUS Robot controller.

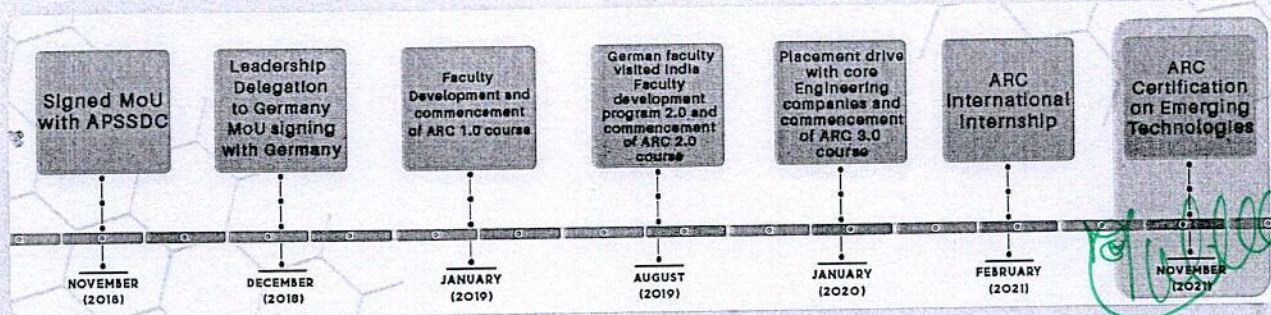

Students gained knowledge on PLC and Codesys Software and perform differently assignment tasks provided.

Students learned about IIoT with the industry observations.

Students gained knowledge on Key technologies of industry 4.0 such as Mechatronics, Robotics and Integration of both for Smart Manufacturing.

ARC CERTIFICATION ON EMERGING TECHNOLOGIES

This activity also linked project-based learning which gives the student to learn and have hands-on training through APSSDC-ARC centres with the support of Top German companies like FESTO, IGUS ROBOTICS, European Center for Mechatronics and Indo Euro Synchronization is involved to develop and train the graduates and it is one of the extensive and most popular skillings in the 4.0 and the global phenomenon is back. Training the students in their Bachelor's engineering level, and preparing students to be industry-ready by the time of graduation, this is a significant skilling program and supported by APSSDC, which is a unique Industry 4.0 in Industrial Automation Cluster. This is a German technology for the Indian colleges.

STUDENTS FEEDBACK

David
Gudlavallera Engineering College

Applied Robotics Control (ARC) Internship for providing knowledge in the areas of importance of robots and mechatronics in the manufacturing industry. He also shared his experience of learning the software, code systems and IGUS Robot Control.

Aishwarya Suresh
Shri Vishnu Engineering Women's College

This fascination was the driving force behind her the decision to enrol in the ARC International Internship where she was trained right from the basics to industry level applications of Robotics and Mechatronics.

Gnaneswar Yadav
Siddharth Institute of Engineering and Technology

ARC International Internship has helped me discover new horizons in the fields of Mechatronics and Robotics and showing my gratitude towards the concerned faculty, APSDC and Indo Euro Synchronization.

Prudhvi
SRKR Engineering College

I am happy to see the wonderful output with this learning practice and pleasures.

Baby Priyanka
Shri Vishnu Engineering Women's College

I liked this internship course as it was short, quick and very useful indeed. I learnt from the basics of Mechatronics, PLC, and have implemented CProg software and had hands-on experience in Robots.

Charan Sai
Pragati Engineering College

I completed our ARC International Internship. I felt this the internship is an excellent opportunity for anyone who desired to build a career in Mechatronics, mainly to learn from scratch level to industry-level applications.

Dear sir,

Greetings from IES!

ARC empowers the students and college faculties with Futuristic Technology Skills in Mechatronics, Robotics, and emerging technologies in partnership and joint certification with APSSDC. During this ARC activity, the student gets a chance to learn high-end German technological topics; also they will have a chance to implement the project task further at ARC center establishments which are at 31 locations in Andhra Pradesh.

The execution plan for the program is detailed in the presentation attached to this mail.

Looking forward to the beginning of the exciting journey of "ARC - Certification on Emerging Technologies" Please find the attachments.

We appreciate both Spoc and faculties for your cooperation in pooling with Your Esteemed College students to provide the technical skills through ARC.

Do not hesitate to write to us.

Regards,

ARC Team

All the III - B. Tech I - Sem students are here by informed that as a part of IQAC initiatives to encourage multidisciplinary approach, SRKIT in collaboration with APSSDC-ECM-Convergence Training Centre is conducting a **Certification Program** on "Applied Robot Control -Advanced Certification on Emerging Technologies". The resource persons are from world-renowned Institutes and companies such as IIT Delhi, Germany center for Advanced Engineering and Management Studies, FESTO and IGUS Germany. During this program student gets a chance to learn high-end Germany Technologies. The program will Commence from August 2022 to October 2022. The details of the program are displayed in the notice board. Interested candidates can meet Ms. V. Sri Lakshmi, Assistant professor, Department of Electronics and Communication Engineering and Mr. R. Dear Professor,

Greetings!!

The third session is scheduled at 2:00 PM IST, 1st September 2022, Thursday. (Login credentials are mentioned below).

Here we are sharing the official link to download the official IGUS Robot Controlling (IRC) software. Kindly click on the link and download the file.

IRC software Link: https://drive.google.com/file/d/1VZnL_psVgwaJrYYMvMz2j2wq04yDKG3w/view?usp=sharing

Installation Guide:

1. After downloading, open the file and click on more info, and select Run anyway.
2. Now you can install the IRC software file without any issues
3. After finishing the setup, make sure you have all the robot links in the file section.

Indo-Euro Synchronization ARC is inviting you to a scheduled Zoom meeting.

Dear Professor,

Greetings!!

We are about to start our ROS programming module from **Monday, (17th Oct 2022)** for that, it is mandatory to install the provided software links in your lab also you can provide them to your students to have an effective virtual experience. Here we are sharing the official link to download the (ROS) Programming software. Please find the attached session schedule.

1. System Requirements Ram: 8GB ROM: 30GB Free space in the Hard disc System Graphics: 1 GB Windows OS: 8.1 above

2. ROS Software Link: <https://maskor.fh-aachen.de/teaching/courses/arc/> Need to enter the (given below) username and password for the software link.

Username: maskor-arc
Password : arc2022

3. ROS Programming Tools Install Ubuntu 22.04 Virtual Box 6.1.40 Maskor - VM - Appliance (OVA).

4. Software pre-installed. That will speed up the tutorials a little bit more as the participant doesn't need to install much more software while working through the tutorials.

the content of the tutorials that you can see is basically fixed.

Note: If the students have their own laptops they can carry them with installation for more effective learning.

Dear Professor,

Greetings!!

The Seventeenth online session is scheduled at 2:00 PM IST, 21th October 2022, Friday. (Login credentials are mentioned below).

Indo-Euro Synchronization ARC is inviting you to a scheduled Zoom meeting.

Topic: Localisation & Nav2 SLAM by Prof.Dr. Alexander Ferrein and Mr. Marcel Stüttgen

Time: Oct 21, 2022, 02:00 PM IST

Join Zoom Meeting

<https://us02web.zoom.us/j/82583701047>

Meeting ID: 82583701047

Instructions for conducting classes:

- Seminar halls can be used for the ARC online sessions, kindly make necessary arrangements projector, speakers, Camera, and mic to interact with students on clarifying doubts.
- While joining the sessions we request faculty members to join using your college name as a username for monitoring purposes.
- Do not share the session link with the student. We don't allow individual students to access the sessions.

Please do not hesitate to call/write to us for further details/clarifications, if any.

Regards,

ARC Team

Dear Professor,

Greetings for the day!

Herewith we are sending the Assessment time slot and guidelines for your college to attend the test, which are as follows. Assessment login instructions are attached to the email please find the attached document.

1. The Advance Certification on Emerging Technologies Assessment will be conducted on the ARC LMS portal, for the login student need to use their username and passwords.

LMS Portal link: <https://portal.arclabsgermany.com/>

Date & Time: scheduled on 26th October 2022, Wednesday @ 11:00 - 11: 45 AM

The assessment format of the Advance Certification on Emerging Technologies Certification is as below:

Exam Platform: ARC LMS Portal

No of Questions: 40 (objective)

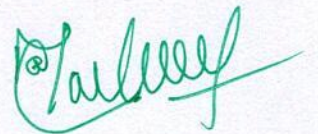

Duration of test: 45 minutes

Syllabus: All questions are based on the content presented during the Advance Certification in Emerging Technology Program.

Please communicate with your students about the assessment from the concerned department to alert them to appear on the test without fail.

For any queries please contact us.

Regards,
ARC Team

Objective of the Program: The objective of the course is to bring latest technologies in automation and manufacturing sectors to the labs of colleges. Firsthand experience on Industrial robots for the students. Learning with industry-driven production requirements, Real-time training to supplement students with skills on advanced technologies to make them stand out in global arena.

Outcome of the Event:

Students of multi-disciplinary engineering courses have undergone this certification training program. During this training students got exposed to various industries oriented robotic applications. Students had their hands on training over IGUS Robotic Controller Software Package. Students were trained over PLC software package and ROS programming module. Students were exposed to low-cost automation tools and importance of automation. Even though the program concluded on 21-10-2022, students utilized the labs for hand on practice over 4-Axis IGUS Robots.

Assignments performed by students

1. Automation of Pick and Place of a Workpiece simulation using IRC software
2. Automation of Palletizing of work pieces using IRC software
3. Automation of Bartender using If – Else, Loop Condition, Subprogram Commands in IRC Software
4. Automation of Pick and Arranging of boxes in a container in a 3×3 matrix format by using Variable Operations commands (Set, math. Subtract)
5. Collaboration of Two robots (Small and Big robots)
6. Assembling of two different work pieces for a continuous process
7. Programmable Logic Control (PLC) for Motor Mechanism
8. Programmable Logic Control (PLC) for Blub Mechanism
9. Programmable Logic Control (PLC) using On Delay Timer function
10. Programmable Logic Control (PLC) using Off Delay Timer function
11. Programmable Logic Control (PLC) for Blub Mechanism

With the training provided by IGUS Professionals and the ARC Trained faculty of SRKIT, students performed various assignments given by the IGUS Professionals. Students appeared for an assessment and secured a global certificated on these emerging technologies certification program.

The certificates reached the institute by post and those certificates were awarded to the students by respective department HoD's.

On the first day, program was inaugurated by the Dr. B.Ashalatha, HOD of CSE with a motivational talk on importance of Cisco certifications in programming, application development .After the speech of HOD, the classes were conducted as per the schedule given.

In total 24 students of III B.Tech attended this program. On the last day of the program few aspirants gave their feedback on how the training sessions helped them in improving their Networking skills.Finally,the program was concluded with a vote of thanks by student representatives. The students are going for the online test after the completion of each module

The student has successfully achieved student level credential for completing Networking Essentials course administered by the undersigned instructor. The student was able to proficiently.

- **Learn what Cybersecurity is and its potential impact to you.**
- **Understand the most common threats, attacks and vulnerabilities.**
- **Gain insights for how businesses protect their operations from attacks.**
- **Find the latest job trends and why Cybersecurity continues to grow.**

Introduction

The 2020 training of Cisco Internet of Things (IoT) Fundamentals is going BEYOND! This course has been tailored to fit current existing situations around us cutting across the different verticals ranging from agriculture to energy, environment to manufacturing, homes and warehouses to transportation among others.

The 2020 curriculum will cover the theoretical aspects of IoT (Introduction to IoT, Connecting Things, Big Data and Analytics and Security) and the hands-on lab activities that exposes you to electronics, programming (an introduction to C and Python), networks, Data and Security. Additionally, the course will cover Packet Tracer (PT) simulations for IoT and will feature a guest Engineer from Cisco.

The goal of the course is to expose students to IoT technologies and sharpen their problem-solving skills through a practical approach that can ideate, design, prototype and present IoT solution for an identified problem.

Course Overview

- Overview of Internet of Things (IoT) – Machine-Type Communications (MTC), the IoT Architecture and surrounding concepts, IoT Applications and the IoT Building Blocks.
- Introduction to Microcontrollers and Hardware Programming: AVR, ARM and STM32 Microcontrollers, Programming using the Arduino/Visual Studio Code, Atmel platform and STM32 Cube platforms. The hardware programming languages to be covered: Arduino, C and C++.
- Introduction to System on Chip (SoC) and Programming- Concepts of RISCs and Embedded OS, Interfaces, GPIO Pins, Connecting sensors and Introduction to Python. Introduction to Raspberry Pis and Beaglebone Blacks (BBB).
- Communication technologies (Wi-Fi, BLE, GPRS/GSM, LPWANs), Protocols and Working with open-source Cloud Platforms for IoT. A telecommunications Lab demonstration using Software Defined Radios (SDRs) will also be provided.
- Introduction to Cisco Prototyping Lab and Packet Tracer IoT simulation environment.
- Implementation of simple IoT application data visualisation and IoT Security.

The Department of CSE conducted program on **"Introduction to IOT" Skill Development program** from 07-09-2022 to 07-12-2022 during 03.45 pm to 04.25 pm.

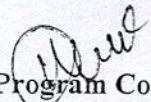

On the first day, program was inaugurated by the Dr. B.Ashalatha, HOD of CSE with a motivational talk on importance of Cisco certifications in programming, application development .After the speech of HOD, the classes were conducted as per the schedule given.

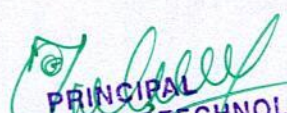

In total 19 students of III B.Tech attended this program. On the last day of the program few aspirants gave their feedback on how the training sessions helped them in improving their Networking skills. Finally, the program was concluded with a vote of thanks by student representatives. The students are going for the online test after the completion of each module

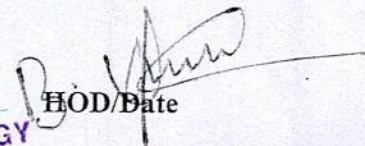

The student has successfully achieved student level credential for completing Networking Essentials course administered by the undersigned instructor. The student was able to proficiently.

- **Learn how the current digital transformation is creating unprecedented economic opportunity.**
- **Understand how the IOT is bridging the gap between operational and information technology systems.**
- **Discover how standard business processes are being transformed.**
- **The security concerns that must be considered when implementing IOT solutions.**

Course Overview

The Introduction to Cybersecurity course explores cyber trends, threats and staying safe in cyberspace, and protecting personal and company data.

Benefits

Learn how to protect your personal data and privacy online and in social media, and why more and more IT jobs require cybersecurity awareness and understanding.

Learning Components

- 5 modules
- Interactive and instructional content
- 8 Activities and 7 lab exercises that reinforce learning
- 4 quizzes and 1 final exam
- Links to related resources

Target Audience: Secondary and 2-Year college students, general audience

Prerequisites: None

Instructor Training Required: No

CE Alignment Required: No

Languages: Arabic, Chinese-S, Dutch, English, French, German, Hebrew, Indonesian, Italian, Japanese, Kazakh, Polish, Portuguese, Russian, Spanish, Ukrainian

Course Delivery: Instructor-led or Self-paced

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

Department of Electrical & Electronics engineering is started in the year 2012 at present intake with 60. The department is heading with an objective to develop industry ready engineers while meeting local industry needs. The department is an integral part of SRK Institute of Technology, Vijayawada.

Since inception the department has well experienced and committed faculty, who continuously strive for the benefit of the students and their career development. The strength of the department is its laboratory facilities besides good infrastructure. Department of EEE also has a dedicated Projects lab to carry project activities by the students and faculty. Faculties of the department

continuously encourage /drive the students to involve in industrial visits, internships and also provide various training programs to enhance the technical skills of the students.

COURSE CONTENT:

Day 1:

- Power transmission capability of an HVDC transmission system

Day 2:

- Feed forward neural networks

Day 3:

- Recurrent Neural Networks
- Support Vector Machines

Day 4:

- Particle Swarm Optimization
- Genetic Algorithms

Day 5:

- Fuzzy Interference Systems
- Fuzzy Logic

Day 6:

- Ant Colony Optimization
- Hybrid Approaches
- Machine Learning Ensembles

PROGRAM REPORT

Name of the Program : One Week Certificate Program on “Power Transmisson Capability of HVDC Transmission System Using Soft Computing Techniques”

Date / Duration : 21-09-2022 to 27-09-2022 (1 week)

Resource Person : Mr.P.Prabhakar Sharma, Associate Professor
Kallam Harinadh Reddy College

Name of Coordinator : Mr. Mr. K. Narendra Babu, Assistant Professor, EEE.

Number of Participants: 31

Program Objectives : The objectives of this program are

- Introduce participants to the fundamentals of Power System Engineering and challenges ahead.
- Cover various multi-disciplinary aspects of electrical engineering and the associated functions. Discuss the emerging trends in power system and associated challenges.
- Focus on new technologies and solutions for modern energy network to enable larger penetration of distributed renewable resources and to make systems more resilient

Topics Covered : The following topics were discussed in this certificate program ✓

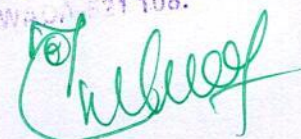

- Feedforward Neural Networks
- Recurrent Neural Networks
- Support Vector Machines
- Particle Swarm Optimization
- Hybrid Approaches
- Machine Learning Ensembles

Program Outcome : The workshop is intended to facilitate the students to acquire Knowledge and information on latest trends in Power System Engineering. This program will help the students to fit into the Modern Technologies.

Report

Name of the Program: **"Programming essentials in Python"**

Date: 01-10-2022 to 15-12-2022

Timings : 03.45 pm to 04.25 pm

Resource Person: Dr.A.Radhika

Coordinator : G.M.Padmaja

The Department of CSE conducted program on **"Programming essentials in Python"** Skill Development program from 01-10-2022 to 15-12-2022 during 03.45 pm to 04.25 pm.

On the first day, program was inaugurated by the Dr. B.Ashalatha, HOD of CSE with a motivational talk on importance of Cisco certifications in programming, application development .After the speech of HOD, the classes were conducted as per the schedule given.

In total 109 students of II B.Tech attended this program. On the last day of the program few aspirants gave their feedback on how the training sessions helped them in improving their Networking skills. Finally, the program was concluded with a vote of thanks by student representatives. The students are going for the online test after the completion of each module

The student has successfully achieved student level credential for completing Networking Essentials course administered by the undersigned instructor. The student was able to proficiently.

- Think algorithmically—how to analyze a problem and translate it for a computer to process.
- Design, develop, and improve multi-module computer programs.
- Analyze and model real-life problems in Object-Oriented Programming categories.
- Understand a programmer's work in the software development process.
- Learn how a program is executed in a computer environment.
- Gain skills to create and develop your own programming portfolio.

Statement of Achievement

PCAP: Programming Essentials in Python

The graduate of the *PCAP: Programming Essentials in Python* course, provided by Cisco Networking Academy® in collaboration with OpenEDG Python Institute:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

Statement of Achievement

PCAP: Programming Essentials in Python

The graduate of the *PCAP: Programming Essentials in Python* course, provided by Cisco Networking Academy® in collaboration with OpenEDG Python Institute:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Electronics and communication Engineering (ECE) was established in 2007. The department runs both UG and PG with well experienced faculty in various disciplines of ECE. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

COURSE CONTENT:

PROGRAM REPORT

Date: 18-10-2022

Name of the Program : Six day certification course "Microsoft Azure Fundamentals"
Date : 10-10-2022 to 15-10-2022
Resource Person : Mr. Krishna Thankey, Senior Associate Trainer, Microsoft.
Mobile No: 9942682140

Number of Participants : 37

Program Objective : The objective of this program is to create role-based Microsoft certification pathways that professionals can take to stay relevant in a turbulent market that is completely volatile due to a global pandemic situation. Careers get an edge when the resume stands out with widely-acknowledged certifications such as Microsoft Azure Certifications.

Topics Covered : The topics covered in this program are

- Core Azure Concepts
- Core Azure services
- Core solutions and management tools on Azure
- Identity, governance, privacy and compliance

Program Outcome : Completing this course should provide the students with a good Understanding of Infrastructure as a Service (IaaS), Software as a Service (SaaS) and Platform as a Service (PaaS), solutions for analytics, virtual computing, storage, networking, and other services. Azure helps students to design, deploy, and manage apps more rapidly and easily without acquiring and maintaining the underlying information technology components.

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Electronics and communication Engineering (ECE) was established in 2007. The department runs both UG and PG with well experienced faculty in various disciplines of ECE. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

COURSE CONTENT:

Day 1:

- Meet Raspberry Pi Pico
- Introduction to open source Hardware and Software
- Micro-python Firmware

Day 2:

- Raspberry Pi as Clint Server
- Python for raspberry Pi Pico.
- Action Retrying

Day 3:

- Interfacing LED
- Interfacing Buzzer
- Interfacing Stepper and DC Motor

Day 4:

- Interfacing PIR sensor, DHT11 , Ultrasonic Sensor, LDR
- Interfacing IR sensor to Raspberry Pi

Day 5:

- Implementation of MQTT
- Implementation of RPI
- Uploading Data to cloud

Day 6:

- IoT based smart home automation
- IoT based smart dustbin system

PROGRAM REPORT

Name of the Program : Six day certification course on "Raspberry Pi Pico Programming and Interfacing"

Date : 14-11-2022 to 19-11-2022

Resource Person : Mr. C.Sudhakar Reddy
SRC e-Solutions, Mobile No: 9885096867

Number of Participants : 99

Program Objective : The objective of this program is to educate the students about Raspberry Pi Pico platform concepts, Interfacing mechanisms and various applications in real time.

Topics Covered : The topics covered in this program are

- Raspberry Pi Pico overview
- Pin configurations of Raspberry Pi Pico
- Python programming basics for Raspberry Pi Pico
- Operating system configuration for Raspberry Pi Pico
- Interfacing with PIR sensor, DHT11, IR sensor, Ultrasonic
- Interfacing with Buzzers, LED, DC and Stepper motor
- Developing an IOT based smart dustbin system
- Developing an IOT based Home automation and security system

Program Outcome : Completing this course should provide the students with a good Understanding of Raspberry Pi Pico operations and its interfacing with various peripherals and various real time applications.

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

Department of Electrical & Electronics engineering is started in the year 2012 at present intake with 60. The department is heading with an objective to develop industry ready engineers while meeting local industry needs. The department is an integral part of SRK Institute of Technology, Vijayawada.

Since inception the department has well experienced and committed faculty, who continuously strive for the benefit of the students and their career development. The strength of the department is its laboratory facilities besides good infrastructure. Department of EEE also has a dedicated Projects lab to carry project activities by the students and faculty. Faculties of the department

continuously encourage /drive the students to involve in industrial visits, internships and also provide various training programs to enhance the technical skills of the students.

COURSE CONTENT:

Day 1:

- Introduction to open source hardware and software
- Introduction to Raspberry Pi Pico

Day 2:

- Configuration Raspberry Pi Pico
- Python basics for programming

Day 3:

- Interfacing LED, Buzzer

Day 4:

- Interfacing PIR sensor
- Ultrasonic sensor

Day 5:

- Implementation of MQTT, RPI web

Day 6:

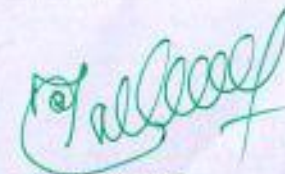

- An IoT based smart home automation
- An IoT based smart dustbin system

PROGRAM REPORT

Name of the Program : Six day certification course on “Raspberry Pi Pico Programming and Interfacing”

Date : 14-11-2022 to 19-11-2022

Resource Person : Mr. C.Sudhakar Reddy
SRC e-Solutions, Mobile No: 9885096867

Number of Participants : 59

Program Objective : The objective of this program is to educate the students about Raspberry Pi Pico platform concepts, Interfacing mechanisms and various applications in real time.

Topics Covered : The topics covered in this program are

- Raspberry Pi Pico overview
- Pin configurations of Raspberry Pi Pico
- Python programming basics for Raspberry Pi Pico
- Operating system configuration for Raspberry Pi Pico
- Interfacing with PIR sensor, DHT11, IR sensor, Ultrasonic
- Interfacing with Buzzers, LED, DC and Stepper motor
- Developing an IOT based smart dustbin system
- Developing an IOT based Home automation and security system

Program Outcome : Completing this course should provide the students with a good Understanding of Raspberry Pi Pico operations and its interfacing with various peripherals and various real time applications.

ABOUT THE INSTITUTION

SRK Institute of Technology was established in the year 2007 under JNTUK Affiliation and Accredited by NAAC with 'A' grade 2022. It is located in the heart of city of Rural Vijayawada, the new capital city of Andhra Pradesh. Since its inception in 2007, the institution has been dedicated to impart quality education to professional students for innovations and leadership in a global competitive world. The institution is Offering engineering courses in CE, CSE, ECE, EEE, IT, ME, CSE-Artificial Intelligence and Machine Learning, CSE-Data Science and Post Graduate Courses M.Tech in CSE, ECE, MCA & MBA

ABOUT THE DEPARTMENT

The Department of Science and Humanities is a threshold for students entering into professional courses. It lays a strong foundation to the major engineering courses offered by the Institute. The department is a blend of many disciplines – English, Mathematics, Physics, Chemistry and Environmental Sciences. The courses offered by the department are English, Mathematics, Engineering Physics, Engineering Chemistry, Applied Physics, Applied Chemistry, Environmental Sciences and many more like Employability Skills, Constitution of India and Universal Human Values. The department has many experienced, research oriented faculty who actively publish papers in various National and International journals regularly. Apart from the academics, the department conducts many co- curricular and extracurricular activities for students.

ABOUT THE PROGRAM

This program is designed for enabling the students to empower with a skill set to analyze the making data and drive decisions. The students will identify the marketing segments. It is customized to address the needs of the student.

PROGRAM REPORT

Name of the Program : "Mastering Data Analysis"
Initiation Date : 19/12/2022
Closure Date : 28/01/2023
Timings : 4:00pm – 5:30 pm
Resource Person Details : D.Nalani Kumari, Assistant Professor
Contact No: 8317536566
Number of students attended: 118
Number of students completed the course: 118

Topics Discussed:

Data Analysis is the study of data to uncover patterns and insights. Its high demand is driven by the need for businesses and organisations to make informed decision based on data .Python is popular for data analysis and ease of use ,allowing efficiency and fast data analysis.

Importance of Data Analytics, Descriptive analytic, Diagnostic Analytics, Predictive Analysis, Measures of Dispersion, Filtering and storing a Pivot table and creating a Pivot chart.

Course objectives:

- Identifying trends and patterns.
- Making data driven decisions, Predictive modeling.

Course outcomes:

- Data encourages critical thinking and aids in analyzing intricate details within the business..
- Finding correlations and relationship and it determines the quality of the data available for analysis.

A 30 hour duration course was conducted for students. The course content was customized to address the needs of the students. The program is designed for enabling the students to empower with a skill set to analyze the making data and drive decisions. The students got identifying the marketing segments. The students participated in the course very enthusiastically and gave a positive feedback.

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE, CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already existing popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Electronics and communication Engineering (ECE) was established in 2007. The department runs both UG and PG with well experienced faculty in various disciplines of ECE. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

COURSE CONTENT:

Day 1:

- Python and Computer Programming
- Data Types
- Variables
- Basic Operators

Day 2:

- Boolean Values
- Conditional Execution.
- Loops

Day 3:

- Python Language Syntax
- Python Keywords and Identifiers
- Python Variables
- Data Types

Day 4:

- Django
- Python scripts

Day 5:

- File operations in Python
- Database
- Views

Day 6:

- Python Object Oriented Programming
- Python built in function
- Python Multithreaded Programming

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE,CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Electronics and communication Engineering (ECE) was established in 2007. The department runs both UG and PG with well experienced faculty in various disciplines of ECE. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering engineering undergraduate courses in CE,CSE, ECE, EEE, IT, ME and post graduate courses M.Tech in ECE & CSE, MBA, MCA and IMBA. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians and industrialists. The college is fully established with all infrastructural facilities with well qualified and experienced faculty. Within a short period of its inception, the college has carved a niche among the already exiting popular colleges. Today, the institute is rated as one of the RISING STARS on the horizon.

ABOUT THE DEPARTMENT

The Department of Electronics and communication Engineering (ECE) was established in 2007. The department runs both UG and PG with well experienced faculty in various disciplines of ECE. The department also hosts state-of-the-art laboratory facilities supporting both hardware and software in conformity with the curriculum and beyond. The department organizes Faculty Development Programs frequently to enhance skills.

ABOUT THE INSTITUTION

SRK Institute of Technology was established in the year 2007 under JNTUK Affiliation and Accredited by NAAC with 'A' grade 2022. It is located in the heart of city of Rural Vijayawada, the new capital city of Andhra Pradesh. Since its inception in 2007, the institution has been dedicated to impart quality education to professional students for innovations and leadership in a global competitive world. The institution is

Offering engineering courses in CE, CSE, ECE, EEE, IT, M.E. and Post Graduate Courses M.Tech in CSE, ECE, MCA & MBA

ABOUT THE DEPARTMENT

The Department of Civil Engineering GIS an under graduated programme of the college and was started in the year 2007 with an intake of 60 students and the strength increased to 120 in 2009. The department has well established laboratories and well qualified faculty in various specialized areas of Civil Engineering like Structural Engineering, Geo-Technical Engineering, Water Resource Engineering, Transportation Engineering and Environmental Engineering. The department has conducted workshops, guest lectures, techno-fests and training programs in association with

various organizations. The department is actively participated in R&D activities by offering the student live projects and guest lectures by academicians and industrial experts. It maintains the data base of old students of the department

Department. One of the greatest strength of the Civil Department

ADD ON CERTIFICATION COURSE

In the present situations of construction industry, the buildings that are being constructed are gaining significance, in general, those with the best possible outcomes which are referred to members like beams and columns in multi storeys R.C structures. The software investigation of base isolation compared with fix base, generally while analyzing structure we provide fix support for the foundation over here isolator are used instead of fixed base and compared. These are compared for base shear, story drift, story acceleration, displacement, reaction etc. In this study, a comparison is made of the seismic response of a G+14 story base-isolated building by idealizing the superstructure as rigid and flexible. In this work the Lead Rubber Bearing (LRB) isolation system is considered. Two different heights of buildings low and medium rise in zone V is considered. For such analysis ETAB software was used. 3 G+14 story structure was analyzed for dynamic earthquake using response spectrum method. The results obtained are Story drift, Story acceleration, Base shear, Lateral displacement, Reaction at base. This paper intends to demonstrate how an isolation system can be efficient, evaluating its effectiveness for the building in terms of story acceleration, base shear, story drift and story displacement reductions.

PARTICIPANTS CAN BE

All civil Students.

CIRCULAR

All the III/IV B tech 2nd Semester students are here by informed that department of civil engineering is conducting an ADD-ON certification program titled "**Comparative analysis of seismic response of buildings with different base isolation systems**". The resource person is Mr. E.SRINIVAS, Assistant Professor, Department of civil engineering, NRI Institute of technology and management. The program will commence on **20-02-2023** and will conclude on **25-02-2023**. The details of the programs are displayed on the notice board. Interested students can register through **Ms.G.Sahithi**, Assistant Professor, and Department of civil engineering

SYLLABUS COVERAGE

Academic year : 2022-2023

Program duration : 6 DAYS

SESSION	SYLLABUS	DURATION
Session - 1	Understanding about Seismic analysis of structures	3hrs
Session - 2	Method of analysis of structures with different base isolation systems	3hrs
Session - 3	Loads acting on multi storey building along with codes	3hrs
Session - 4	Classification of isolators and its uses	3hrs
Session - 5	Description of given building in ETABS V17 along with IS 456 & IS 1893	3hrs
Session - 6	Analysing RC Structure with fixed base MODEL-1	3hrs
Session - 7	RC Structure with Fluid viscous damper and lead rubber bearing MODEL-2	3hrs
Session - 8	Calculation of storey displacement along X & Y direction	3hrs
Session - 9	Calculation of Base Shear along X & Y direction	3hrs
Session - 10	Maximum storey drift along X-Direction & Y-Direction	3hrs
Session - 11	Calculation of natural time period & design of lateral forces of structure in both MODEL 1 & MODEL 2	3hrs
Session - 12	Comparison of FVD & LRB isolators MODEL 2 & fixed base isolator MODEL 1	3hrs

Program Report

Name of the Event: An Add-on certificate program on “Comparative analysis of seismic response of buildings with different base isolation systems”

Program commenced on: 20-02-2023

Duration:36 Hours

Resource person:

Mr.E.Srinivas, Assistant professor, Department of Civil Engineering, NRIIT
Email: srinu.iqac@gmail.com
Mobile: 8639783721

Name of Coordinator: Ms.G.Sahithi, Assistant professor, Department of civil Engineering, SRKIT.

Number of students certified/enrolled: 50/50

Objective of the program:

- To study the behaviour of structure without masonry infill if seismic load is applied.
- To find out the bending moment and shear force selecting any one section for various seismic zones.

Outcome of Event:

1. Seismic analysis of structures
2. Different types of isolators in buildings

TOPICS COVERED :

SESSION	TOPICS TO STUDY	DURATION
Session - 1	Understanding about Seismic analysis of structures	3hrs
Session - 2	Method of analysis of structures with different base isolation systems	3hrs
Session - 3	Loads acting on multi storey building along with codes	3hrs
Session - 4	Classification of isolators and its uses	3hrs
Session - 5	Description of given building in ETABS V17 along with IS 456 & IS 1893	3hrs
Session - 6	Analysing RC Structure with fixed base MODEL-1	3hrs
Session - 7	RC Structure with Fluid viscous damper and lead rubber bearing MODEL-2	3hrs
Session - 8	Calculation of storey displacement along X & Y direction	3hrs
Session - 9	Calculation of Base Shear along X & Y direction	3hrs
Session - 10	Maximum storey drift along X-Direction & Y-Direction	3hrs
Session - 11	Calculation of natural time period & design of lateral forces of structure in both MODEL 1 & MODEL 2	3hrs
Session - 12	Comparison of FVD & LRB isolators MODEL 2 & fixed base isolator MODEL 1	3hrs

ABOUT THE INSTITUTION

SRK Institute of Technology was established in the year 2007 under JNTUK Affiliation and Accredited by NAAC with 'A' grade 2022. It is located in the heart of city of Rural Vijayawada, the new capital city of Andhra Pradesh. Since its inception in 2007, the institution has been dedicated to impart quality education to professional students for innovations and leadership in a global competitive world. The institution is Offering engineering courses in CE, CSE, ECE, EEE, IT, ME, CSE-Artificial Intelligence and Machine Learning, CSE-Data Science and Post Graduate Courses M.Tech in CSE, ECE, MCA & MBA

ABOUT THE DEPARTMENT

The Department of Science and Humanities is a threshold for students entering into professional courses. It lays a strong foundation to the major engineering courses offered by the Institute. The department is a blend of many disciplines – English, Mathematics, Physics, Chemistry and Environmental Sciences. The courses offered by the department are English, Mathematics, Engineering Physics, Engineering Chemistry, Applied Physics, Applied Chemistry, Environmental Sciences and many more like Employability Skills, Constitution of India and Universal Human Values. The department has many experienced, research oriented faculty who actively publish papers in various National and International journals regularly. Apart from the academics, the department conducts many co- curricular and extracurricular activities for students.

ABOUT THE PROGRAM

This program equips the knowledge and skills necessary to develop effective security control, understand cyber threats and reduce the negative impacts of data breaches. Analyze various types of cybercrime including hacking, cyber stalking and identify theft while developing strategies to mitigate them.

PROGRAM REPORT

Name of the Program : **Cyber Security**
Initiation Date : 03/03/2023
Closure Date : 15/04/2023
Timings : 4:00 pm – 5:30 pm
Resource Person Details : **Dr. A. Radhika, Associate Professor**
Contact No: 9885986856

Number of students attended: 104

Number of students completed the course: 104

Topics Discussed: Overview of Networking Concepts, Information Security Concepts, Security Threats and Vulnerabilities, Cryptography / Encryption, Security Management Practices, Security Laws and Standards.

Cyber Security is the practice of protecting systems, networks, and programs from digital attacks. These cyber attacks are usually aimed at accessing, changing, or destroying sensitive information; extorting money from users via ransomware; or interrupting normal business processes.

Implementing effective cyber security measures is particularly challenging today because there are more devices than people, and attackers are becoming more innovative.

Course objectives:

- Protecting the Confidentiality of data
- Preserving the Integrity of data

Course outcomes:

- Identify risk management processes, risk treatment methods, organization of information security.
- Examine software vulnerabilities and security solutions to reduce the risk of exploitation.

A 45 hour duration course was conducted for students. The course content was customized to address the needs of the students. The program is designed for enabling the students to empower with a skill set to analyze the threat landscape and create strategies to ensure system stability and security. Master essential cyber security skills through hands-on training in real-world cases. The students participated in the course very enthusiastically and gave a positive feedback.

The Department of CSE conducted program on **"Introduction to Packet Tracer" Skill Development program** from 13-03-2023 to 13-05-2023 during 03.45 pm to 04.25 pm.

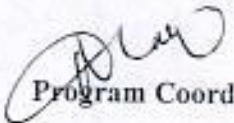

On the first day, program was inaugurated by the Dr. B.Ashalatha, HOD of CSE with a motivational talk on importance of Cisco certifications in programming, application development .After the speech of HOD, the classes were conducted as per the schedule given.

In total 14 students of IFB.Tech attended this program. On the last day of the program few aspirants gave their feedback on how the training sessions helped them in improving their Networking skills. Finally, the program was concluded with a vote of thanks by student representatives. The students are going for the online test after the completion of each module

The student has successfully achieved student level credential for completing Networking Essentials course administered by the undersigned instructor. The student was able to proficiently.

- > Supplement classroom equipment with realistic simulations and visualize internal processes in real-time
- > Multiuser, real-time collaboration and competition for dynamic learning
- > Authoring and localization of structured learning activities such as labs, demonstrations, quizzes, exams, and games
- > Students explore concepts, conduct experiments, and test their understanding of network building
- > Design, build, configure, and troubleshoot complex networks using virtual equipment
- > Can be used for lectures, group and individual labs, homework, games, and competitions
- > Supports feature expansion through external applications using an API

Course Overview

Networking Essentials teaches networking based on environments students may encounter in their daily lives including small office and home office (SOHO) networking.

This course provides hands-on learning using real equipment and Packet Tracer simulation activities.

Benefits

This course teaches the skills needed to obtain entry-level SOHO network installer jobs. Networking Essentials prepares students for continuing with the CCNA curriculum. Students studying other non-IT fields would also find this course a useful introduction to IT and networking.

Learning Components

- 9 chapters
- 21 hands-on labs
- 17 Cisco Packet Tracer activities
- 1 hands-on skills assessment
- 9 chapter exams, 1 checkpoint exam, 1 practice final exam, 1 final exam

Target Audience: Secondary and 2-year college vocational students, college and university students studying non-IT fields

Prerequisites: None

ASC Alignment Required: No

Instructor Training Required: Yes

Languages: Arabic, Chinese-S, English, French, German, Portuguese-BR, Russian, Spanish

Course Delivery: Instructor-led

Estimated Time to Complete: 70 hours

Introduction to Packet Tracer Course

DESCRIPTION

- Teach Packet Tracer features and functionalities
- Teach students how to add, connect, configure, and troubleshoot networks using virtual equipment
- Teach students how to add, connect, configure and monitor smart devices
- Teach students how to create, configure and modify a Thing with Packet Tracer

FEATURES

- Self-paced course; instructors may also be able to create and teach
- Instructional and tutorial videos
- Activities and labs
- Assessments
- Course duration: 70 hours

TARGET AUDIENCE

- Students with minimal knowledge of Packet Tracer
- Students with some knowledge of networking and IoT

Networking

Course Overview

Networking Essentials teaches networking based on environments students may encounter in their daily lives including small office and home office (SOHO) networking.

This course provides hands-on learning using real equipment and Packet Tracer simulation activities.

Benefits

This course teaches the skills needed to obtain entry-level SOHO network installer jobs. Networking Essentials prepares students for continuing with the CCNA curriculum. Students studying other non-IT fields would also find this course a useful introduction to IT and networking.

Learning Components

- 9 chapters
- 21 hands-on labs
- 17 Cisco Packet Tracer activities
- 1 hands-on skills assessment
- 9 chapter exams, 1 checkpoint exam, 1 practice final exam, 1 final exam

Target Audience: Secondary and 2-year college vocational students, college and university students studying non-IT fields

About Institution

SRK Institute of Technology is one of the best engineering colleges located in Vijayawada, Andhra Pradesh. The college was established in the year 2007 with a visionary chairman Sri B.S.AppaRao. It offers Bachelor's Engineering degree in all major branches and Master's Degrees MBA, MCA and M.Tech in CSE and ECE.

About the Department

The Department of Master of Computer Applications lead by Mrs. M. Anitha is equipped with the best of resources ensuring high quality education to students. The MCA department is associated with Leading India. Ai, Bennett University, Greater Noida, which is playing major role in the reach of Artificial Intelligence to students and researchers in India.
