WHEREAS:

The new state of Andhra Pradesh has come into existence after bifurcation of the erstwhile combined state of Andhra Pradesh in June-2014. In the process of fulfilling its commitment for formation of a modern State, the State has initiated its endeavors, primarily on infrastructure building and rapid industrialization. To support this initiative, Government of Andhra Pradesh (GoAP) has identified manufacturing as a key area and is establishing clusters to nurture growth in vital sectors like Auto and Electronics by setting-up industrial corridors, Special Economic Zones (SEZs) etc,. The immediate necessity for industrialization is the manpower development. In the process of industrialization and infrastructure building, it is obligatory on the part of GoAP to simultaneously develop a large pool of skilled manpower to cater to the needs of the industry and service sectors. In this endeavor, the State has earnestly decided to address the skill shortage which is much projected by the user industry. The initiative of Statewide high priority for skill development shall also ensure up-gradation of skills. The sectors with largest manpower requirement in the coming years will be Manufacturing, Construction, Hospitality, Banking, Financial Services and Insurance and Information Technology/IT enabled services.

Eventually, the Skill Development has occupied the key focus area of GoAP. The process of developing large pool of skilled manpower has been envisaged in partnership with industry to make the skill development mission more industry relevant and self-sustainable. In the process of achieving these goals, the GoAP has incorporated APSSDC as a special corporate which shall strive for the appropriate and demand driven Skill Development.

APSSDC in its several meetings has discussed and decided to achieve the goal of skill development with participative approach of the stakeholders' viz. the Government, Industry, academic institutions, youth and all other stakeholders. The APSSDC would provide the extra infrastructural requirements in selected academic institutions. In this process, the APSSDC has selected some of the leading Engineering Colleges/Govt. Polytechnics/Industry associated training institutions for providing the infrastructural facilities additionally required for running the Skill Development programs.

The APSSDC and SRK Institute of Technology which is selected for **CM's Skill Excellence Center (SEC): ICT Lab** have mutually discussed and agreed to enter into this agreement as detailed hereinafter.

Introduction:

Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency. Git is easy to learn and has a tiny footprint with lightning fast performance. It outclasses SCM (Software Code Management) tools like Subversion, CVS, Perforce, and ClearCase with features like cheap local branching, convenient staging areas, and multiple workflows.

GitHub is an American company that provides hosting for software development version control using Git. It is a subsidiary of Microsoft, which acquired the company in 2018. It offers all of the distributed version control and source code management (SCM) functionality of Git as well as adding its own features. It provides access control and several collaboration features such as bug tracking, feature requests, task management, and wikis for every project.

Software Documentation / Technical Documentation is an important task during the product development so that the users need not to worry about how to use your product. From a very small project to a project with a huge number of developers, technical documentation writing is easy by using ReadTheDocs and Sphinx tools.

As a condition to such defense and indemnification, Cisco will provide your Academy with prompt written notice of the claim and permit your Academy to control the defense, settlement, adjustment or compromise of any such claim. Cisco may employ counsel at its own expense to assist it with respect to any such claim, provided, however, that if such counsel is necessary because of a conflict of interest of either your Academy or your Academy's counsel or because your Academy does not assume control, your Academy will bear the expense of such counsel. Cisco shall have no authority to settle any claim on behalf of your Academy.

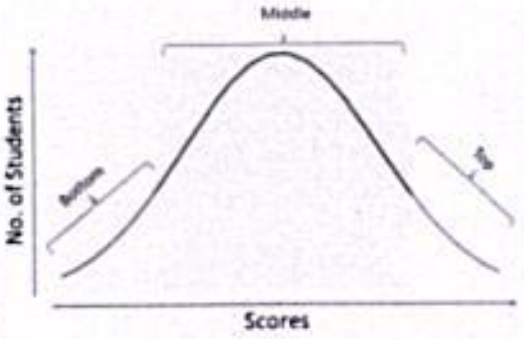
How we get results

- **Goal Oriented** :

  All our programs are outcome based. Our aim is results, not completion of hours.

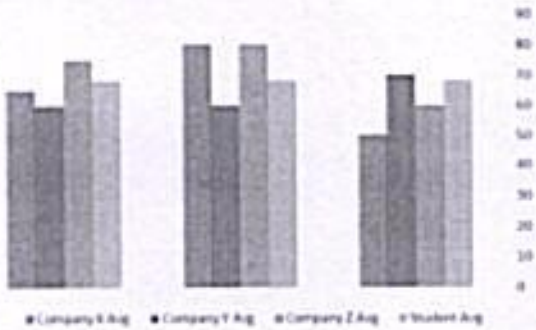
- **Customized and Dynamic:**

  Our CRT is customized taking into account the quality of intake, major hiring companies, placement strategy, segregation of students based on needs.



- **Measure Progress** :

  Progress is measured at regular intervals. No program is conducted without measuring progress.



- **Identify Gaps** :

  Needs are identified based on desired outcome and current status. Focused training strategy for students who are low of employability skills to improve overall placement results.

- **Practice** :

  Practice makes a man perfect! We believe in this and that's why practice is an integral part of our programs.

- **Length of Training** :

  Length of the program is designed based on the outcome and gaps.

- **Daily Training Hours** :

  Programs are conducted for 2-3hours per day. We all know, anything more than that will not be effective.

- **Multiple Phases** :

  Our programs are spread across many phases so that the assimilation and retention is better.

SRK Institute of Technology, Enikepadu, Vijayawada – 521108, Andhra Pradesh, (herein after called SRKIT) is affiliated to Jawaharlal Nehru Technological University, Kakinada, Andhra Pradesh. SRKIT has taken a progressive step in the field of sanitation by initiating actions for incorporating Open Defecation Free ++ (ODF ++) / Faecal Sludge and Septage Management (FSSM) in the certification program soon to be launched at SRKIT. Also, it is decided to take a step towards sensitizing motivated students working in the field of FSSM. This would go a long way in realizing the vision of making Andhra Pradesh an ODF++state.

SRKIT herewith has taken yet another progressive step towards girl students. Despite growing number of girl students in engineering streams, there is still a gender gap that needs to be bridged. In this regard, it is decided to take a step in sensitizing the community on the need for empowerment of women. Also, if girl students are trained as change makers for environment related issues, it will go a long way in protecting the environment and society.

PROGRAM REPORT

Date: 21-06-2021

Title of the Program: An Online Seminar on"FAECAL SLUDGE & SEPTAGE MANAGEMENT- AN APPROACH FOR SAFER ENVIRONMENTAL SANITATION"

Resource person : Sri Uday Singh Gautam, State Program Manager & Sanitation Expert, ASCI stationed at Vijayawada, Andhra Pradesh. Ph.no.9849333311.

Guests: Dr. Malini Reddy & Dr. Priyanka Reddy
Members of ASCI, Hyderabad

Duration : 2hours (11:00AM to 01:00PM)

No. of Participants : 124

Organized by: Department of Civil Engineering, SRKIT.

Collaboration: Conducted in association with Administrative Staff College of India, Hyderabad (ASCE) as a part of the MoU signed with the Institute.

Description : Sanitation in India is a key to achieving improved public health and enhanced socio-economic outcomes. To achieve this objective, Ministry of Urban Development has launched two key schemes namely, Swachh Bharat Mission (SBM) and Atal Mission for Rejuvenation & Urban Transformation (AMRUT). While SBM aims to end open defecation by universalizing construction and use of toilets, AMRUT is aimed at strengthening the sewerage and water supply network of the country. Both schemes aim to holistically address the existing gaps under the sanitation value chain in India.

At present, the penetration of sewerage systems is low in the country and more than 45% of urban Indian households are dependent on On-Site Sanitation (OSS) systems. Thus, till the time the Government's vision of 100% sewerage universalization is

achieved, it is felt that faecal sludge output needs to be managed in an environmentally safe and sustainable manner using complementary and alternative methods of treatment. In view of this, the Ministry of Urban Development is launching the National Policy on Faecal Sludge and Septage Management (FSSM) to facilitate nationwide implementation of FSSM in India.

Main Objective: To impart knowledge on all the important aspects of Faecal Sludge for the design and operation of a comprehensive FSSM system.

Broad Objectives:

1. To ensure that all benefits of wide access to safe sanitation accrue to all citizens across the sanitation value chain with containment, extraction, transportation, treatment, and disposal / re-use of all faecal sludge, septage and other liquid waste and their by-products and end-products.
2. To promote access for households to safe faecal sludge and septage management facilities (including proper disposal arrangements).
3. Suggest and identify ways and means, including the methods and resources, towards creation of an enabling environment for realising safe and sustainable FSSM in India.

Content covered by the Resource Person:

- ✓ Design of septic tanks, pits etc. (adapted to local conditions), including siting, and methods of approval of building plans, or retro-fitting existing installations to comply with rules and byelaws.
- ✓ Delineation of private (individual houses, groups housing, institutions etc.) and public responsibilities (urban local bodies and other local authorities) in relation of faecal sludge and septage management.
- ✓ Details of the planning and implementation process for carrying out safe and sustainable management of all faecal sludge and septage. This may be integrated with overall city land use planning, with the timelines for holistically addressing waste water management via on-site, decentralised or centralised systems.
- ✓ Special provisions for medium and large format real estate developments.
- ✓ Frequency of desludging, and O&M of installations and the responsibilities of householders (owner/occupant).

PRINCIPAL
SRK INSTITUTE OF TECHNOLOGY
ENIKEPADU, VIJAYAWADA

- ✓ Operating procedures for desludging including safety procedures with an emphasis on the safety, health and dignity of sanitation workers.
- ✓ Licensing, record-keeping, monitoring and reporting arrangements for faecal sludge and septage service providers.
- ✓ Methods and locations of transport (conveyance), treatment and safe disposal.
- ✓ Tariffs or cess/tax etc. for septage management in the city. Penalty clauses for untreated discharge for households as well as desludging agents and unsafe emptying and handling of faecal waste.
- ✓ Regular monitoring and evaluation of the entire process of FSSM.
- ✓ Training, accreditation, education and awareness programs.

Outcomes:

1. Have an understanding of the treatment, management, and planning aspects related to FSM, and how they interact;
2. Comprehend the importance of proper sludge characterization for optimal collection and transport, treatment and reuse;
3. Apply engineering fundamentals to design systems for management and treatment of faecal sludge;
4. Place FSM in an urban waste management context for sustainable and feasible planning of FSM systems.

SRK Institute of Technology, Enikepadu, Vijayawada – 521108, Andhra Pradesh, (herein after called SRKIT) is affiliated to Jawaharlal Nehru Technological University, Kakinada, Andhra Pradesh. SRKIT has taken a progressive step in the field of sanitation by initiating actions for incorporating Open Defecation Free ++ (ODF ++) / Faecal Sludge and Septage Management (FSSM) in the certification program soon to be launched at SRKIT. Also, it is decided to take a step towards sensitizing motivated students working in the field of FSSM. This would go a long way in realizing the vision of making Andhra Pradesh an ODF ++state.

SRKIT herewith has taken yet another progressive step towards girl students. Despite growing number of girl students in engineering streams, there is still a gender gap that needs to be bridged. In this regard, it is decided to take a step in sensitizing the community on the need for empowerment of women. Also, if girl students are trained as change makers for environment related issues, it will go a long way in protecting the environment and society.
